

GiardiaClear Introduction

**Options and pricing - Page 16*

Welcome to the GiardiaClear Introduction. Struggling to clear this troublesome parasite? You aren't alone. *Giardia 'Lambliia', 'Giardia Intestinalis' or 'Giardia Duodenalis'* is the No.1 protozoan parasite, worldwide, and growing.

There are two main types... European and Asian. Or Type A and B. Infections can be either acute (recent) or chronic (long-term or 'refractory'). European becomes chronic in 20% of cases. Asian, in 70%.

Giardia infects three main areas. Your intestinal lining, pancreas and bile ducts. Causing gas and bloating, pain and inflammation and other symptoms. Cysts may travel to other parts of the body, re-infecting you days, weeks or months later.

Once established in the gut, Giardia can be difficult to clear and has a profound effect on health, leading to 300+ different chronic conditions*. Giving weight to Hippocrates saying...

"All disease begins in the gut."

Infection is most often caused by contaminated water. Pools, ponds, lakes, drinking water, ice.

Medical Doctors are of little help. They are not trained in parasitology, may deny a parasite's existence and, cruelly, refer sufferers to psychiatrists for 'Delusional Parasitosis'. One may ask why? but that's another topic. Standard microscopy stool tests can miss it, since cysts are not shed, consistently. Doctors fail to consider a parasite and may diagnose Celiac Disease or other inflammatory gut/bowel conditions.

While mainstream medicine can sometimes clear new (acute) infection, treatment is less effective once Giardia becomes chronic. Approx 12 days after infection. Standard pharma remedies may not clear cysts and cannot penetrate 'biofilm' nor impacted waste.

"You can't heal a dirty body." - Gerson

Antibiotics harm beneficial bacteria, do not heal an inflamed intestinal lining nor restore missing bacterial strains (your natural defences) nor do they repair damage caused by long-term infection.

**Giardia infection can be mistaken for Lyme Disease since it produces many Lyme-like symptoms.*

“I believe the single most undiagnosed health challenge in the history of the human race is parasites. I realize that is a pretty brave statement, but it is based on my 20 years of experience with more than 20,000 patients.”

- Dr Ross Anderson

Despite intense effort and no small cost, many are unable to clear chronic Giardia infection and recover their health. Numerous reasons exist for failure (see below) but the main reason is a lack of knowledge. Both among practitioners and the public. Better education and more effective solutions are needed. Giardia is not something easily cleared with a pill.

How do I know? I was misdiagnosed for 13 years and have spent the last 5 years working with chronic Giardia and Lyme Disease infections learning, the hard way, what is or isn't effective.

GIARDIACLEAR is a structured, step-by-step, holistic protocol, designed to clear chronic infection, repair the gut and restore the body's natural defences. The program includes the steps necessary to recover your health plus 4 hours of one-on-one, technical and emotional support, working directly with me.

Key steps:

- Detoxification and Intestinal Sanitation - so Giardia cannot feed on nor hide in poop or waste
- Anti-Giardials - natural anti-parasitics which penetrate and break down biofilm
- Restore missing gut flora - strains which are either cytotoxic to Giardia or anti-inflammatory
- Proteolytic enzymes - attack the protein coat of cysts, calm inflammation, assist digestion
- Brush Border Enzymes – Supplement, until enzymes are recovered, naturally
- Nutrition - to counter Giardia-induced malabsorption
- Fasting (if appropriate) - doubles parasite clearance rates, increases stem cell production
- Maintenance Protocol - prevents re-infection (may need long-term)
- Bioresonance - parasite identification, progress-monitoring, Meta-Therapy

Modules

Can be customized dependent on individual need.

Pesticides, Chemicals, Heavy Metals,
Metabolic & Acid Wastes, Lymphatic
Drainage, Endo- & Neuro-Toxins

Parasites, Pathogens, Fungal Overgrowth,
'Bad' Bacteria, Viruses, Mold

Inflammation, Unbalanced Gut Flora,
Stunted Micro-Villi, Enzyme Deficiency,
Food Sensitivities

Probiotics, Stress Management,
Sleep, Exercise, Nutrients

Individualized Diet, Trace & Macro
Minerals, Vitamins

Biofilms, EMFs, Dental, Emotional Trauma,
Negativity, Addiction, Stagnation,
Restricted Blood, Lymph & Nerve Flow

GIARDIACLEAR

Program includes:

- Initial assessment and information-gathering
- Design and delivery of individualized protocol
- 240 minutes, one-on-one, technical and program support
- Bioresonance - Intermediate and Premium Options

"When we broaden the definition of Giardia to include other chronic persistent infections, like bartonella and mycoplasma, probably 80 to 90 percent of the U.S. population is suffering symptoms caused by chronic persistent infections"

- Dr Dietrich Klinghardt

We all want to take a pill and get better. It's how we've been conditioned. Unfortunately, 'a pill for every ill' doesn't work for chronic disease. 50% of those infected in the Facebook Giardia Group are still have been sick for over 5 years.

Antibiotics may control, or temporarily reduce, parasite load but at the cost of damaging gut health. Repeated pharmaceutical assaults on the gut make it that much harder, sometimes impossible, to recover. Even when successful in clearing the parasite, symptoms may not automatically resolve, for reasons Doctors don't understand. In my opinion, the inability to calm inflammation is the primary cause.

Giardia establishes colonies in the gut, pancreas and bile ducts where it feeds on waste and nutrients, creates biofilm to hide behind, alters gut bacteria to its liking, triggers inflammation and produces waste products which add to the overall body burden.

A fundamental starting point, for reversing ALL chronic disease, is to **correct the internal conditions causing you to get sick**. What do we do when goldfish water is dirty? Inject or drug the goldfish or **clean the water**? What does common sense tell you?

10 Reasons

Giardia Treatments Fail

1. Lack of knowledgeable doctors
2. Lack of a properly structured protocol
3. Ineffective or inadequate solutions
4. Unreliable testing
5. Individual responses to treatment
6. Failing to address underlying cause
7. Toxicity & deficiency
8. Poor compliance
9. Lack of support and guidance
10. Lack of funds

Do you know there are dozens of ways which prevent us from healing? A complete list is in my new book, **'What's Keeping You Sick?' - Paul Keenan*

Why GIARDIACLEAR Succeeds

- 1 Comprehensive
- 2 Properly structured
- 3 Addresses underlying cause
- 4 Natural and holistic
- 5 Individualized
- 6 Effective anti-microbials
- 7 Clears blockages to healing
- 8 Testing Included
- 9 Guidance and support
- 10 Fair pricing

How Effective Is GIARDIACLEAR?

Success depends on following the protocol. Over the last 5 years, I have seen 75% clear in 5-14 days. 20% need more time/adjustment. 5% fail, for reasons which are unclear.

In some cases, a maintenance program may be required (up to 2 years). You also need time to repair damage done to you.

Factors affecting healing include number of co-conditions, age, length of time infected, gender (50yr+ females have a harder time) and extent of damage.

Barriers to Healing

If you aren't making progress you may be blocked in some way. There are many possibilities. Here's a few..

- Co-Parasites
- Pathogenic biofilm
- Low vitality
- Systemic toxicity
- Genetics
- Nutrient deficiencies
- Missing beneficial bacteria (low immunity)
- Food sensitivities
- Inflammation
- Chronic disorders
- Toxic stress
- EMFs*
- Unresolved emotional trauma
- Dental
- Restrictions to blood, lymph and nerve flow

*Electromagnetic radiation is a growing problem. EMFs and Ionizing radiation suppress immune function, encourage fungal and parasitic overgrowth and are pro-inflammatory.

“Die-off” or Herxheimer Reaction

During the clearance phase, worms, parasites, fungi and bacteria can release chemicals, such as ammonia, which make us feel unwell. If you are sensitive to ‘die-off’ and immune reactions, steps are included to eliminate or reduce them.

Fasting

- Fasting DOUBLES success rates. Or, put another way... if you eat, you HALVE your chances of success.
- Fasting (not starving) has been used for thousands of years to bring about healing. Animals, when sick, instinctively stop eating and seek out clay, herbs, or green leaves (chlorophyll). By not eating, the body’s vitality, previously taken up with preparing, consuming, digesting and eliminating food, can now be directed toward cleansing, healing and regeneration.
- The combination of fasting and cleansing/detoxification is exceptional in reversing chronic disease, generating new stem cells and accelerating all aspects of healing.
- Fasting denies parasites a food source. Since supplements are mostly foods, most are initially excluded. This also eliminates food sensitivities, which can trigger more inflammation and histamine response.
- Fasting is most effective when the body is properly hydrated. Imagine a dirty sponge left, overnight, in a bucket of water. In the morning, the sponge is clean and the dirt is sitting at the bottom of the bucket. Pure water is a solvent. It hydrates and lifts waste out of the tissues and helps move it toward your channels of elimination (kidneys, colon, lungs, skin). If you don’t drink sufficient water, ‘dirt’ cannot ‘lift’ off.

Water, fruit and vegetable juices, hydrate, alkalyze, ‘scrub’ and cleanse. Specific techniques help mobilization, detoxification and elimination of waste matter.

If you have never fasted before, you may think it difficult. Yet, in practice, it is far easier to eat nothing, than consume a raw vegan, or similar, diet, where you feel hungry all the time.

After 36-48 hours digestion ‘switches off’. You can then go 10, 20, 30 or even 40 days, without hunger. The body gets to work, ‘cleaning house’. Scavenging and consuming dead, damaged and dying cells. This is known as ‘Autophagy’.

Everyone can do 3 days. You won’t lose weight or muscle. However, if you are unable to Fast, healing diets are allowed. Such as vegan, GAPS, AIP. Keep in mind when you eat, recovery times are slower.

What matters is that your food is clean and nutrient-dense. In today's poisoned world, finding such food is increasingly difficult.

Healing cannot occur in the presence of inflammation. An inflamed intestinal lining, due to Giardia, causes swelling and 'leaky gut', stunts or eliminates micro-villi (which absorb your nutrients), leads to a loss of brush border enzymes and creates food sensitivities and allergies. Anything you put in your mouth, including supplements, can irritate the intestinal lining, keeping your inflammatory fires burning.

Food Sensitivity Testing helps identify and exclude 'trigger foods', which can be re-introduced, once healed.

Bioresonance

“If you want to find the secrets of the universe, think in terms of energy, frequency and vibration.” - Nikola Tesla

Luc Montagnier, who discovered the human immunodeficiency virus (HIV), spent years looking at how microbes communicate with each other and our immune system. He found they do so through emissions of electromagnetic light waves, microwaves and low frequencies. Chemical signals are secondary.

This becomes of major importance when we consider “dirty electricity”... EMFs, Smart meters, WiFi towers, mobile phones, routers, microwaves, etc..

Figure 1: Quantum Analyzer Screenshot

In cultures and religions, throughout the world, we are considered ‘Beings of Light’. Our cells communicate with each other using light and frequency. A whole branch of Energy Medicine has developed around this idea. Auras, Chakras, Acupuncture, the Laying On of Hands, Crystals, Stones, Reiki, Flower Remedies and more. Such techniques attempt to manipulate the flow of energy through the body.

‘Energy Medicine’ is based on the concept that everything in nature has its own unique, resonant frequency. A bit like the old wireless Radio Stations had their own radio frequency.

Over the last 100 years, Doctors, scientists and researchers have cataloged thousands of frequencies... Plants, herbs, minerals, vitamins, crystals, stones, parasites, organs, healthy and unhealthy states, hormones, emotions, even supplements and pharmaceuticals... and put them into

computerized databases. Scans compare frequencies in the body, to those in the databases, identifying imbalances. Weakened frequencies can, theoretically, be ‘energetically’ corrected, restoring healthy, cell-to-cell communication.

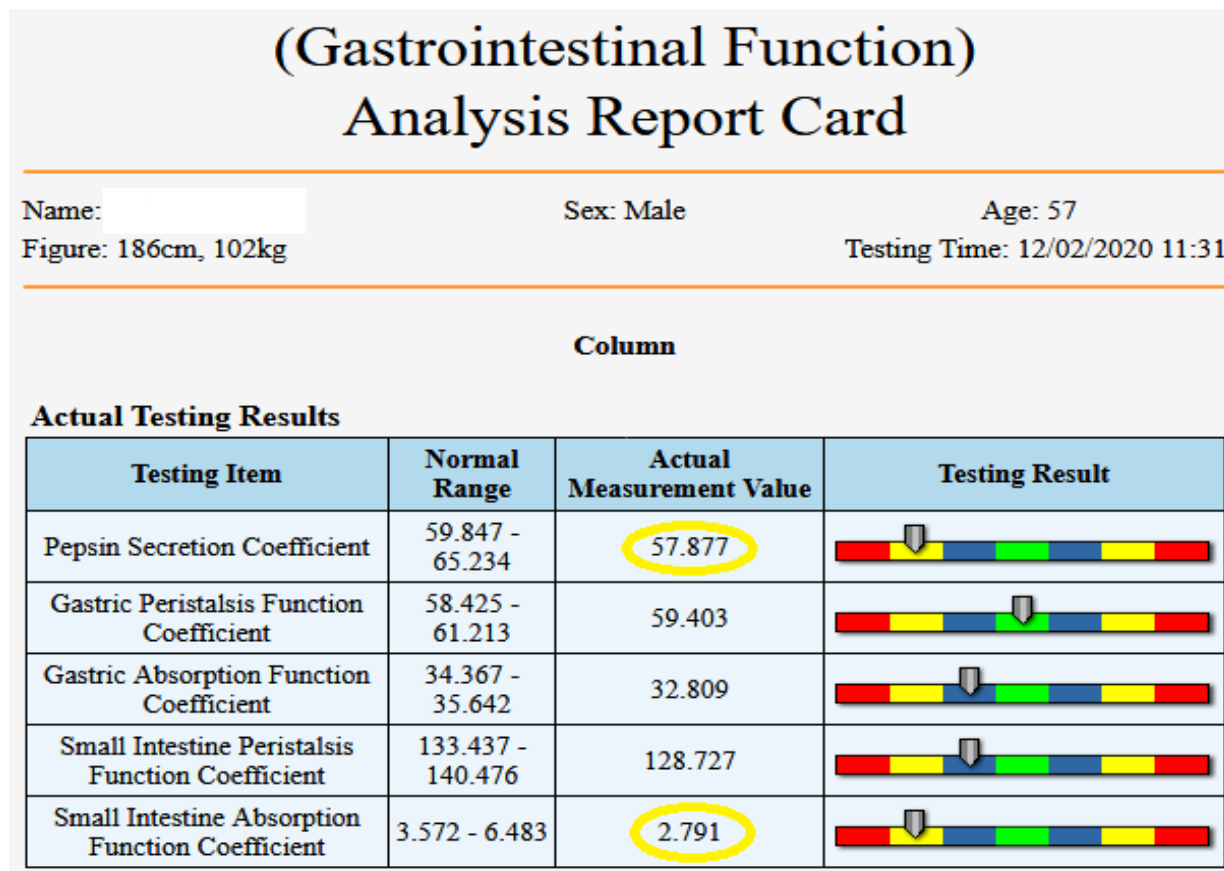

Figure 2: Example results from the Quantum, which provides 49 different reports.

The Need for Testing

How do we know if a supplement or herb is working? If your parasite or pathogen has been cleared? What foods and substances you are sensitive to? If your inflammation has resolved or gut healed? If your Iron, Zinc, B12 levels and Folate are too low or recovered? If gut bacteria are balanced and enzyme production is restored? When it is okay to move to the next stage of the protocol?

Bioresonance testing showed I had Giardia. In many others, since. For that ability, alone, these devices are worthwhile. You can still follow a protocol, using symptoms. However, for me, energetic testing is a ‘game-changer’. Putting an end to guesswork.

Depending which option you choose, either 1 or 2 devices are shipped to you. These are sourced direct from the manufacturer, which gives significant discounts on high street prices. I am then able to scan you, remotely and provide training if you wish it.

How is it Used?

Using Remote Access software, I connect, remotely, to your pc or laptop, complete the setup of the software, then run a baseline scan. Devices have a therapy option. They also allow you to monitor your progress, giving 'Before' and 'After' comparisons. Training is available for those who wish to help family members and others.

Scans, in the comfort of your own home or office, are convenient and can save significant time and cost. No need to wait for appointments or travel to a practitioner who may be some distance away. You also avoid the expense of repeated tests and re-tests.

What Can It Test?

Bioplasm

- Specific conditions and infections. Their location and stage.
- Bacteria, fungi, viruses and parasites.
- Food Sensitivities - which foods strengthen or weaken you.
- Nutrient Deficiencies.
- Recommends foods, herbs, supplements and pharmaceuticals.

Quantum

Generates 49 reports including:

- Major systems, mineral, vitamin, amino acid, fats and collagen status
- Blood sugar, prostate health, hormones, chemical, metal toxicity and more

Note: These devices are not approved by the FDA and are for educational purposes only. Results are not to be considered clinical diagnoses.

Recovery of Costs

When evaluating the cost/benefit of devices, keep in mind they can be sold after the program, recouping some, or all, of your outlay. Most clients keep them to check family, friends or for their own future needs.

Supplements

I do not sell or promote supplements. Nor benefit from commissions (which can double or triple practitioner profit).

REQUIREMENTS

To run Bioresonance software and hardware you will need:

A laptop or desktop PC, running Microsoft Windows 10
3 available USB ports
Broadband Internet Connection

*****Mobile phones and Apple Macs are not suitable*****
