

THE **LYMECLEAR™** PROTOCOL

An Innovative Approach to Lyme Disease

INTRODUCTION

“I believe the single most undiagnosed health challenge in the history of the human race is parasites. I realize that is a pretty brave statement, but it is based on my 20 years of experience with more than 20,000 patients.”

- Dr Ross Anderson

If you have, or work with, chronic Lyme Disease, you will observe many in the Lyme Community, despite intense effort and no small cost, are unable to recover their health. There are numerous reasons for this. Not least of which, chronic Lyme Disease is complex and difficult to resolve.

In late 2018, after interviewing dozens suffering long-term, chronic Lyme Disease, I was surprised to find considerable misunderstanding of why we get sick and what is needed to get well. It was not that the myriad of therapies sufferers try, do not work. It is more they were not being applied in an optimal way. At best, achieving only temporary relief of symptoms.

Resolving chronic Lyme Disease requires more than the, almost-universal focus on clearing invaders. It requires a properly structured, holistic program, coupled with technical and emotional support to complete it.

Without **structure**, sufferers approach healing in a piecemeal manner, and are destined to fail. Without **support**, they lack the knowledge, focus and consistency to adhere to programs. Without addressing the **whole** person, it can be almost impossible to clear infection.

An ideal, holistic program is comprehensive, individualized, easy to understand and apply. It should be accessible, affordable, with speed and efficiency prioritized. Since, the longer it takes to recover, the greater the overall cost, suffering and ‘drop-out’ rate.

The **LYMECLEAR™** and **LYMECLEAR PLUS™** Programs incorporate all these requirements into a complete, modular protocol.

LYMECLEAR™ Modules

Pesticides, Chemicals, Heavy Metals, Metabolic & Acid Wastes, Lymphatic Drainage, Endo- & Neuro-Toxins

Parasites, Pathogens, Fungal Overgrowth, 'Bad' Bacteria, Viruses, Mold

Inflammation, Unbalanced Gut Flora, Stunted Micro-Villi, Enzyme Deficiency, Food Sensitivities

Probiotics, Stress Management, Sleep, Exercise, Nutrients

Individualized Diet, Trace & Macro Minerals, Vitamins

Biofilms, EMFs, Dental, Emotional Trauma, Negativity, Addiction, Stagnation, Restricted Blood, Lymph & Nerve Flow

Program Highlights

2-Part, step-by-step program, designed to clear major infections in 7-14 days* and achieve complete remission, in 3-6 months

By restoring normal function, quickly, the direct and indirect costs of long-term illness are dramatically reduced

Whole-person, holistic, approach. Correcting internal conditions within the body, providing a welcoming environment to invaders

Complementary to other methods. Can incorporate Buhner, Cowden and other herbal regimes. By improving the 'Inner Terrain' and removing barriers to healing, anti-microbials become more effective

Flexible. Progress can be rapid and aggressive, or slow and gentle, depending on the sensitivity, reactivity, health status and vitality of the individual

Includes one-on-one, 'live', video or audio support, directly with a Practitioner

Easy to understand, deliberately avoids technical jargon

Provides a choice of high quality supplements, to suit different budgets and individual responses

LYMECLEAR™ PLUS adds Bioresonance. Identifying imbalances, monitoring progress, testing for Food Sensitivities and resetting weakened cells to a healthy state

Bioresonance engages the client, fully, in their own recovery. It is a boon to practitioners, eliminating much of the guess-work

LYMECLEAR™ and **LYMECLEAR PLUS™**
are available as [Online Consultations](#) or [Residential Retreats](#)

Charities, Foundations and Angel Investors are actively being sought, to make the program available free, or at low cost, to those suffering financial hardship

LYMECLEAR™

Parts I & II

Part I - Clear Infections

- Days 1-3** Detoxification and Intestinal Cleansing
- Days 4-5** Clear Parasites, Bacterial and Fungal Infections
- Days 6-7** Clear Mycoplasmas and Remaining Infections

Part II – Gut & Immune Repair

1. Resolve Inflammation
2. Seal and Repair the Intestinal Lining
3. Restore Enzyme Production
4. Re-Balance Gut Flora (Beneficial Bacteria)
5. Correct Nutritional Deficiencies
6. Restore Digestive Power

What is Included in the Program?

1. The complete **LYMECLEAR™** Protocol
2. 240 Minutes Online Video or Audio Support
3. Bioresonance* - **LYMECLEAR PLUS™** Only

Why Is a Program Like This Necessary?

"When we broaden the definition of Lyme disease to include other chronic persistent infections like bartonella and mycoplasma, probably 80 to 90 percent of the U.S. population is suffering symptoms caused by chronic persistent infections"

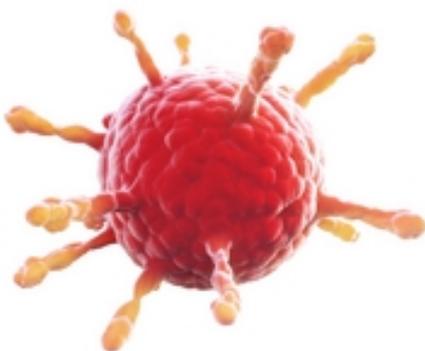

- Dr Dietrich Klinghardt

We all want to just take a pill and get better. It's what we have been conditioned, from birth, to expect. Unfortunately, taking a pill may work with fresh infection but doesn't work with chronic Lyme Disease. Long-term medication may manage, or temporarily reduce, pathogenic load but it usually comes at a price to your gut health and doesn't restore health.

What makes us healthy?

In simple terms, we are made up of a bunch of cells and two fluids. The liver is a bunch of cells and two fluids. The kidneys are a bunch of cells and two fluids. Eyes, skin, brain.. a bunch of cells and two fluids. 25% is blood. 75% is Lymph. Blood supplies nutrients to the cells. Lymph takes away metabolic 'trash'. Food in. Waste out. It's that simple.

In an healthy body, spherical, red blood cells swim in oxygenated, nutrient-rich, free-flowing fluid, with a balanced PH, free of toxins and pathogenic microbes. Cells and the 'Microbiome' communicate with each other, 'energetically', without interference. The gut and immune system take care of invaders, before they can become established. Healthy cell DNA replicates healthy new cells. There is no sickness.

In an unhealthy body, the immune system becomes 'depressed'. The gut, 'leaky' and inflamed. Stomach acid production, reduced. Energy system, crashed. The Lymphatic system... the body's 'waste disposal system'... backs-up with metabolic and other wastes. Bodily tissues become more acidic. Like a goldfish swimming in dirty water, stressed, misshapen, red blood cells, swim in a toxic, oxygen-starved, 'soup'. Cell DNA lacks the nutrients to replicate healthy cells. A **'PARASITES WELCOME'** sign hangs around our necks. We become sick.

Parasites, worms, fungi and pathogenic bacteria overwhelm and evade our defenses, establishing colonies in the gut and elsewhere, where they feed on wastes and nutrients, create bio-films (to hide behind), alter our gut bacteria to their liking, trigger inflammation, and produce their own waste products, which add to the overall body burden. Systemic fungal and bacterial overgrowth damage cells, organs and tissues. Chronic, degenerative disorders arise.

Looking at health this way, why would we think a single antibiotic, herbal supplement or therapy would fix it?

Yet, this is how many proceed.

A fundamental starting point, for reversing chronic disease, is to understand you not only need to clear invaders but also **correct the internal conditions within the body** causing you to get sick.

WHEN THE WATER FILLS WITH TOXINS SYMPTOMS START TO APPEAR

**THE AIM IS NOT TO MEDICATE THE
FISH BUT CLEAN THE WATER**

'Grasshopper Medicine'

Are you practicing 'Grasshopper Medicine'?

Many, suffering chronic disease, approach recovery like grasshoppers. Instead of hopping from leaf to leaf, we hop from supplement to supplement, therapy to therapy, practitioner to practitioner. Often, for years. Herbal remedies, Probiotics, Ozone, Vit C infusions, colonics and enemas, hyperbaric oxygen, saunas, gadgets with lights on, homeopathy, psychotherapy, Rife machines and more.

Hop, hop, hop, hop.

Ask for advice on social media and health forums and you are overwhelmed with suggestions. The one you need may be among them but there are so many to evaluate, you are left as lost and confused as receiving 10 million results, from a "Dr Google" search. You know the results I mean. Where everything **causes** everything and everything **fixes** everything. It's maddening.

We try some of these suggestions and when they don't work quickly enough, we are easily seduced by the next shiny solution dangled before us... then the next... and the next.

Hop, hop, hop, hop.

After a few years of this, we give up. Defeated, out of money and still sick.

A major reason we practice 'Grasshopper Medicine' is cost. It is ironic, when we look back, years later, and see we have **spent a fortune, trying to save money.**

My own 2 decades of struggle is typical. When I look at being unable to work, lost promotion, pension and other benefits, staying sick cost me in excess of \$1 million. Viewed in this light, \$10,000+ on a residential Lyme Disease Retreat, which might have fixed me, at the start of my healing journey, suddenly seems a bargain, and a major reason I provide healing Retreats, today.

To make it available, to as many people as possible, the **LYMECLEAR™** Program includes affordable supplement options.

Effectiveness of Existing Solutions

This **Patient Poll**, found at whatislyme.com, reflects the challenge Lyme Disease presents. A surprise is to see well known protocols rank poorly. Did those who undertook the programs, complete, or abandon them, early? Do Antibiotic results refer to early Stage Lyme, where antibiotics are more effective. Or late Stage, where they are not? With only 346 submissions, there are many unanswered questions. What we can see, is the importance of Herbal Therapies and Dietary change.

LYME PATIENT POLL

What Lyme Disease Protocol has Helped you the Most?

credit whatislyme.com

Votes 346

Why Lyme Disease Solutions Fail

1. Too few Lyme-literate Doctors/Practitioners
2. Lack of a Properly Structured Program
3. Ineffective or Inadequate Protocols
4. Unreliable Testing
5. Individual Genetic Differences
6. Attacking Symptoms and Not Underlying Cause
7. Toxicity - "You Cannot Heal a Dirty Body"
8. Maintaining a 'disease-inducing' lifestyle
9. Sensitivity to 'Die-Off'
10. Unidentified Co-Infections or Parasites
11. Parasitic Resistance to Pharmaceuticals
12. Pathogenic Biofilms
13. EMFs, 'Electrosmog' and Ionizing Radiation
14. Blocked Detox/Elimination Pathways/Channels
15. Unresolved Trauma and Stress
16. Unaddressed Neurological Lyme
17. Damaged Intestinal Lining ('Leaky Gut')
18. 'Depressed' or Unbalanced Immune System ('Microbiome')
19. 'Crashed' Energy System
20. Complex Health Issues (MCAS, MTHFR, SIBO, Mold, Etc..)
21. Adverse Reactions to Supplements or Therapies
22. Relapses
23. Lack of Technical And Emotional Support
24. Failing to Complete a Protocol. It's "too difficult"
25. Poor Compliance (We 'Cherry-Pick' The Bits We Like or We Cheat)
26. Cost

Why LYMECLEAR™ Succeeds

1. Structured, Comprehensive Protocol
2. Individualized
3. Holistic
4. Fasting or Autophagy
5. Detoxification and Lymphatic Drainage
6. Effective Anti-Microbials
7. Managed 'Die-Off'
8. Spore-based Probiotics
9. Gut And Immune System Repair
10. Nutritional Re-Balancing
11. Identifies And Resolves Barriers To Healing
12. Bioresonance Testing, Monitoring and 'Meta-Therapy'
13. Affordability
14. Simplicity
15. Ongoing Technical and Emotional Support

How Effective is LYMECLEAR™?

Part I

Produces 90% improvement in functionality, in 70-80% of clients, within 7-14 days, if Fasting. 15% need more time. 5% will fail, for a variety of reasons.

Part II

Takes 6 weeks to 6 months, depending on the individual.

Everyone experiences some improvement in health. Those with complex issues such as Histamine Intolerance, MOLD, SIBO and MTHFR, may require additional time.

Results are not only based on clients' subjective feeling. With **LYMECLEAR PLUS™** Bioresonance scans confirm improvement. You identify a pathogen, apply the protocol, then SEE an infection or invader, has gone.

There are hundreds of parasites and pathogen strains, which conventional and alternative testing cannot yet identify. The Bioplasm, used in the Program, identifies around 140 different worms, parasites, viruses and fungi, including Lyme Disease, Borrellia, Mycoplasmas, EBV and Candida. Additional Lyme Disease co-infections are set to be included in future updates.

In the absence of positive indicators, indirect indicators, such as inflammation, joint pain, neurological issues, nutrient deficiencies, such as Zinc, Iron, B12 and Folate... are used to track

progress. When symptoms resolve and nutrient levels recover, it is reasonable to assume the invader has been cleared.

Subjects completing the **LYMECLEAR™** program who previously tested positive for Borrelia, Bartonella, Mycoplasmas, Babesia, Anaplasma, Ehrlichia, Candida, Chlamydia, Giardia, mold, worms and Fasciola (liver flukes), report all symptoms resolved.

Barriers to Healing

Parasites, pathogenic biofilms, low vitality, systemic toxicity, genetics, nutrient deficiencies, food sensitivities, inflammation, chronic disorders, toxic stress, EMFs, unresolved emotional trauma, restrictions to blood, lymph and nerve flow, can all act as barriers to healing. Electromagnetic radiation has become a major problem. EMFs and Ionizing radiation suppress immune function and are inflammatory.

In those who fail to respond, blockages need to be identified and cleared. Various techniques are employed to clear these channels.

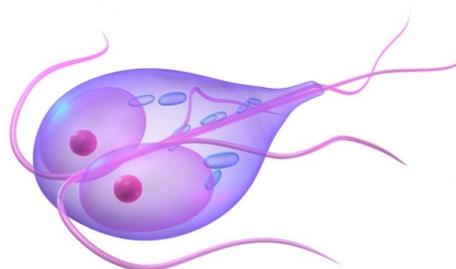

NOTE: Over-zealous clearing of biofilms is dangerous. Beneficial bacteria also create biofilms, which are healthy and necessary!

'Die-off' or Herxheimer Reaction

During the 'Kill' phase, dying parasites, fungi and bacteria, release chemicals, like ammonia, which can make us feel unwell. Some individuals are sensitive to 'die-off' and immune reactions. The **LYMECLEAR™** program includes steps to reduce, or eliminate, such reactions.

Giardia

Few have heard of *Giardia Lamblia*, *Lamblia Intestinalis* or *Giardia duodenalis*. Yet, 'Giardia' is the number 1 protozoan parasite, worldwide, and it's growing.

Once chronic (Refractory), Giardia is a major cause of chronic, degenerative disorders, due to its profound effect on gut and immune health. Because standard microscopy stool tests can easily miss it, practitioners fail to address it and look elsewhere for cause.

Chronic Giardia infects a surprising number of Lyme sufferers and may be the primary cause of their symptoms. When present, Giardia can prevent recovery and, therefore, has to be identified

and cleared. In fact, the **LYMECLEAR™** protocol sprang from significant trial and error, trying to clear Giardia, which has high rates of infection, in Thailand.

Fasting

While it is possible to clear infections, when eating, fasting **DOUBLES** the success rate. Or, put another way... if you eat, you **HALVE** your odds of success.

Fasting (not starving) has been used for thousands of years to bring about healing. Animals, when sick, instinctively stop eating and seek out clay, herbs, or green leaves (chlorophyll). By not eating, the body's vitality, previously taken up with preparing, consuming, digesting and eliminating food, is now available for cleansing, healing and regeneration. All of which occur, at accelerated pace. The combination of fasting and cleansing/detoxification is exceptional in reversing chronic disease, generating new stem cells and accelerating all aspects of healing.

When fasting, parasites are denied a food source. This is why supplements are excluded during **Part I**.

Fasting is most effective when the body is properly hydrated. Imagine a dirty sponge left overnight in a bucket of water. In the morning, the sponge is clean and the dirt sitting at the bottom of the bucket. Pure water is a solvent. It hydrates and lifts waste out of the tissues, then helps move it toward the channels of elimination (kidneys, colon, lungs, skin). If you don't drink sufficient water, 'dirt' cannot 'lift' off.

Water, fruit and vegetable juices, hydrate, alkalyze, 'scrub' and cleanse. Specific techniques help mobilization, detoxification and elimination of waste matter. Ayurveda calls this 'Ama'.

If you have never fasted before, you may think it difficult. Yet, in practice, it is far easier to eat nothing at all than, say, a raw vegan or low carb diet, where you can feel hungry all the time. After 36-48 hours your digestion 'switches off'. You can then go 10, 20, 30 days and more, without any hunger. The body then gets to work, 'cleaning house'. Scavenging and consuming dead, damaged or dying cells. This is called 'Autophagy'.

Eating

If you cannot Fast, healing diets are permitted. Such as Intermittent fasting, Ketogenic, GAPS, Paleo or Carnivore. Keeping the bowels moving, regularly, is critical to success.

Recovery will take longer if gut inflammation is present. An inflamed, intestinal lining and unbalanced gut flora, can cause food sensitivities and allergies. Many foods become 'triggers', irritating the intestinal lining, keeping your 'inflammatory fires' burning. Food Sensitivity Testing

is used to identify trigger foods, so they can be excluded. Inflammation can then be resolved. Once the gut is healed, excluded foods can be re-introduced.

What is Bioresonance?

Luc Montagnier, who discovered the human immunodeficiency virus (HIV), spent years looking at how microbes communicate with each other and our immune system. He found they do so, through emissions of electromagnetic light waves, microwaves, and low frequencies. Chemical signals are secondary.

This becomes of major importance when we consider “dirty electricity”.. EMFs, Smart meters, WiFi towers, mobile phones, routers, microwaves, etc..

In cultures and religions throughout the world, we are considered ‘Beings of Light’. Our cells communicate with each other using light and frequency. A whole branch of Energy Medicine has developed around this idea. Auras, Chakras, Acupuncture, the Laying On of Hands, Crystals, Stones, Reiki, Flower Remedies and more. Such techniques manipulate the flow of energy through the body.

Figure 1: Quantum Analyzer Screenshot

Bioresonance is also Energy Medicine. It is based on the concept everything in nature has its own unique, resonant frequency. A bit like the old wireless Radio Stations had their own radio frequency.

Over the last 100 years, Doctors, scientists and researchers have cataloged thousands of these frequencies... Plants, minerals, vitamins, parasites, organs, healthy and unhealthy states, hormones, our emotions, even pharmaceuticals... and put them into computerized databases. Scans compare the frequencies in the body, to those in the databases, identifying imbalances. These can then be ‘energetically’ corrected, restoring healthy, cell-to-cell, communication.

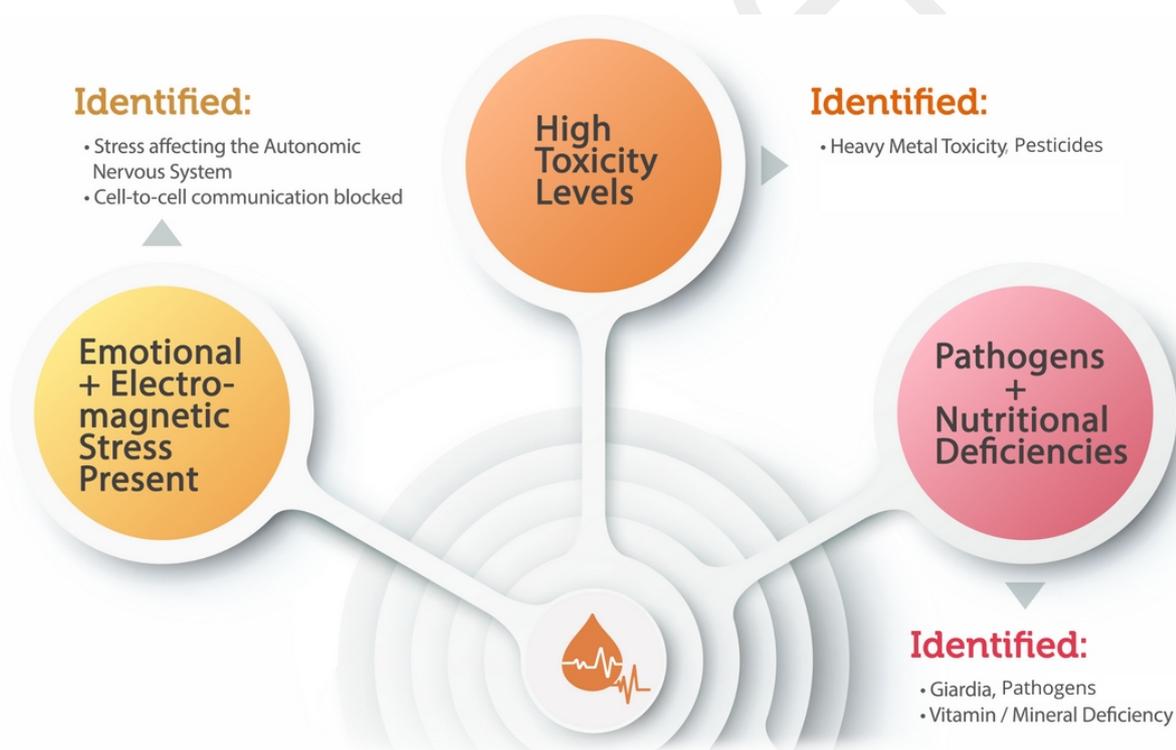

“If you want to find the secrets of the universe, think in terms of energy, frequency and vibration.”

— Nikola Tesla

How do you know if a supplement, or herb, is working? If a parasite or pathogen has been cleared? What foods and substances you are sensitive to? If gut inflammation has resolved and the gut healed? If your Iron, Zinc and B12 levels are back to normal? If gut bacteria are balanced, and enzyme production, restored? Bioresonance can tell you.

Over 20,000 bioresonance machines are in use, in clinics, spas, gyms and hospitals, in numerous countries around the world. From top of the range \$15,000 units, to just a few hundred dollars.

While no testing is perfect, I have found Bioresonance to be a “game-changer” and major factor in **LYMECLEAR’s** success, putting an end to much of the guesswork

With **LYMECLEAR PLUS™** two low-cost, bioresonance devices are shipped to you. I, or an accredited practitioner, can dial-in to your PC, from anywhere in the world, take control (using remote control software), set up the system, run remote scans and ‘Meta-Therapy’, monitor your progress, conduct ‘before’ and ‘after’ analysis, and additional useful tests. Being able to do this while you are in the comfort of your own home, beats the depressing slog, to clinic or hospital, in rain or snow, sitting in waiting rooms filled with the sick. Not a good idea when your immune system is depressed.

What The Devices Tell You

Bioplasm:

- Imbalances, conditions and infections, their location and Stage of progression
- 140 different bacteria, fungi, viruses and parasites
- Food sensitivities
- Nutrient deficiencies
- The herbs, supplements, or remedies, most likely to restore balance

Quantum:

- Scans the 7 major systems of the body. Minerals, vitamins, amino acids, fats and collagen status. Blood sugar, prostate health, hormones, chemical, metal toxicity and more. The full list of 49 reports is available on request.

A single, hand-held, unit is currently being developed. As is remote testing, where you send off a blood sample.

Example reports can be found on my [Lyme Disease](#) and [Lyme Disease Retreat](#) pages.

Conventional Testing

Trying to obtain the equivalent information Bioresonance scans provide, would cost thousands of dollars, from multiple different providers, plus the cost of Doctor visits, travel, etc.. even if you could find such tests. Full panel Lyme testing costs hundreds of dollars, is limited in what it finds and false readings can lead to unnecessary, or inappropriate, treatment.

Reduce Your Costs

Lyme Disease is called the “Rich Man’s Disease”. With practitioner costs, supplements, therapies, testing and re-testing and travel costs, you can be paying thousands of dollars per month, for treatment and supplements. This is beyond most people’s means.

The **LYMECLEAR™** Program reduces these costs, bringing help to a greater percentage of the Lyme Community. You receive a complete, step-by-step, protocol. 4 hours, ‘live’, practitioner support (not just watching a few videos). The ability to conduct unlimited tests. And a welcome reduction in supplement costs. By recovering more quickly you also avoid future costs, which can be significant. No-one should be forced to sell their homes in order to get well.

How You Save on Testing

Hair Mineral Analysis is a common test, often suggested by Naturopaths, costing US\$100-\$125. You send off a clip of hair, then wait for results. If mineral deficiencies are identified, you may supplement, then test again, to ensure levels are recovering.

Two tests x \$125 + the cost of the Doctor visit + travel + time off work, is already more than buying the Quantum (\$225) outright, where **Mineral Status** is just 1 of 49 reports the device generates.

When you add in the cost of Lyme-related testing and re-testing, using bioresonance (to use the jargon) becomes a “no-brainer”.

In some U.S. States, or countries, local laws may not permit the use of bioresonance devices. In this instance you may still be able to use them, ‘for research purposes only’.

You are encouraged to conduct ‘due diligence’ and research this technology, for yourself. Be aware, online videos condemning bioresonance devices, use cheap fakes and misleading ‘tricks’, to keep you away. While these devices can be misused by the unethical, had I listened to naysayers, I would still be sick.

Without Bioresonance

Without Bioresonance the protocol is still effective. However, you are more dependent on symptoms and have less data to work with. Autonomic Response testing (ART) and pulse testing are cost-effective, ways to identify food and supplement sensitivities. Training in both techniques is provided.

Finish The Program

Those experiencing success, with **Part I**, often feel euphoric. It’s easy after, perhaps, years of suffering, to ‘push the boat out’ a little and celebrate. Why bother with **Part II** when you feel 90% recovered and can return to normal life?

Not so fast.

You’ve cleared waste, toxicity, parasites and pathogens, from what Ayurveda calls the ‘Outer Disease Pathway’ (blood, skin and lymphatic system), reducing your ‘total toxic load’. This is why you feel so good. However, the job is only half complete.

We, understandably, think, once we clear invaders, our disorders will resolve and the body automatically heal. This is entirely logical. Unfortunately, for reasons which I will spare you, the body does not automatically heal. You need to take specific actions, in the right order. Resolve gut and systemic inflammation, repair the intestinal wall, rebuild and re-balance the immune system, get enzyme production and the energy system fired up again. So your natural defences are working and protecting you.

There may be outstanding neurological issues, tissue, nerve or joint damage, in need of repair and regeneration.

If you don't complete **Part II**, you new infection or re-infection and a return of invaders, which may have converted to dormant forms, or which would otherwise be kept under control by your immune system.

What If I Don't Respond?

In **Part I**, 75-80% clear parasites and identified infections, within 7-14 days.

It can be discouraging to see others, in the **LYMECLEAR™** support group, succeed, when you may be standing still, or even going backwards. Be of good cheer. You are witnessing the program working, which helps you look forward to your own recovery. It is not a matter of 'If', but 'When'.

Combinations of anti-microbials can sometimes do the trick, as can allowing more time. In stubborn cases, it may be necessary to reverse **Parts I** and **II** of the protocol and focus on deeper detoxification, metals removal, radiation, immune repair, etc..

Once the central and inner pathways are 'clean', and blockages identified and cleared, repeating **Part I** should produce results.

Recovery of Costs

When evaluating cost, keep in mind the bioresonance devices can be sold after the program, recouping some, or all, of your outlay. Most clients like to keep them, as part of their 'home health kit'.

Support Group

Those undertaking the program are automatically added to the **LYMECLEAR™** Support Group on Facebook. Here you can share tips and experiences and encourage each other, in a positive, supportive environment.

Supplements

While I have my own recommended list of supplements, not every item may be available, or permitted, in your State, or country. In this case, **LYMECLEAR™** allows for other herbal regimes, such as those recommended by Klinghardt, Buhner, Cowden, etc..

Why only 240 Minutes Support Time?

LYMECLEAR™ and **LYMECLEAR™ PLUS** have two distinct phases... Elimination and Repair. 120 minutes is the minimum needed, for each.

Part I includes initial assessment and information-gathering; designing and delivering your healing program; providing ongoing technical and emotional support; training and education, making adjustments, working with you to apply the protocol, and responding to the many questions which arise. Time allotted is based on everything running smoothly. i.e. success of each healing phase.

Part II requires regular progress monitoring, necessary adjustments, and ongoing support.

LYMECLEAR PLUS™ (with bioresonance) requires problem-free installation, remote dial-in, running and setting up customized scans, presenting findings, designing and delivering your program, and 'Meta-Therapy'.

While you receive 240 minutes, which can be taken, as needed, practitioners need additional time, offline, to analyze scans and other health data, individualize your program and ensure you have appropriate supplements and therapies.

Detailed instructions for both Parts are provided, which you can follow, alone, or purchase additional support hours, as needed. Those with complex issues may need to purchase more time.

Retreats

While [Online Consultations](#) are affordable and work well, there is no beating a one-on-one, customized program, at my private [Residential Retreat](#), in Thailand.

You work, one-on-one, with me, at my 'Homestay'. Or you may opt for Private, Pool Villa accommodation (may incur extra cost).

You receive 24x7 focus, support and attention. Free from temptation and negativity, in a warm climate and beautiful location, conducive to healing, with all the tools, skills and experience, on-site.

LYMECLEAR™ Retreat prices are half the cost of Retreats, elsewhere. Although, this may need to increase, in mid-2020, as facilities and staff expand.

REQUIREMENTS

To run the Bioresonance software you will need:

A laptop or desktop PC, running Microsoft Windows 8 or higher
At least 2 USB ports + 1 USB adapter
Internet connection

There is no mobile phone option

Previous clients may be willing to loan their devices, or sell at a discount. Contact me for details.
