“I believe the single most undiagnosed health challenge in the history of the human race is parasites. I realize that is a pretty brave statement, but it is based on my 20 years of experience with more than 20,000 patients.”

- Dr Ross Anderson

Lyme & Parasites

Lyme Disease is one of the most difficult challenges in health. Despite tremendous effort and cost, many Lyme Warriors are unable to recover their health. A myriad of reasons prevent recovery, while expert help is hard to find.

Chronic Lyme Disease is complex, with multiple persistent infections and progressively worsening symptoms. Because it is systemic, affecting the whole person, it needs a whole person (holistic) approach.

There is widespread misunderstanding as to WHY we get sick, WHY we can't recover and WHAT is required to get well. Therapies and supplements can help, if barriers to healing are removed and applied in the optimal way. Otherwise, you may only experience temporary relief of symptoms.

"I have not failed. I've just found 10,000 ways that won't work."

- Thomas Edison

Healing Blocks

Just as a car cannot complete its journey if the road ahead is blocked, we cannot complete our healing journey if the path to recovery is blocked. There are a shocking number of ‘ways’ or ‘blocks’ that can keep us sick. Ignorance of these is widespread and the cause of tremendous suffering. Sadly, most chronically-ill remain unaware.

I have yet to find all these ‘ways’ or ‘healing blocks’ in a single guide. Despite being the biggest reason we fail.

To increase awareness I recently produced the **What’s Keeping You Sick?** Series... **Lyme Disease** and **Chronic Disease Editions**... highlighting the most common blocks.

A **Healing Blocks Checklist** helps you quickly identify your personal blocks. It’s online, takes 10 minutes to complete and is **FREE** (details, below). Your results are immediately emailed back to you.

This should answer the question **WHY** you are unable to recover.

Achieving Remission

Putting chronic Lyme Disease into permanent remission involves more than simply attacking invaders. It requires a plan or protocol.

Protocols need to be easy to understand, structured, holistic, customized just for you and include support (it's difficult doing this, alone).

- **Complexity** keeps us confused and feeling helpless.
- Without a **Structured Plan** we proceed in a piecemeal manner.
- **Individualization** means we don't share the same genes, bacteria, behaviors, emotions, beliefs, symptoms or responses to therapies. It's why 'one-size-fits-all' solutions fail.
- Without **Support** we lack knowledge, discipline and the motivation to complete a protocol.
- Without addressing the **whole** person, solutions are often inadequate.

LYMECLEAR takes all these requirements into account.

Costs

The average annual cost of Lyme treatment, in the U.S. is over US\$50,000.

Treatment costs can decimate personal finances. Many Lyme Warriors lose everything, even their homes. Some, tragically, take their own lives.

It's not just the **direct** costs, of medicines, Doctor visits, practitioners, supplements and therapies. There's also the **indirect** costs. Being unable to work... loss of income, promotion, reduced pension, health coverage and lost opportunity. These can be considerably higher, costing tens, if not hundreds of thousands of dollars.

How you **approach recovery** has a significant effect on finances.

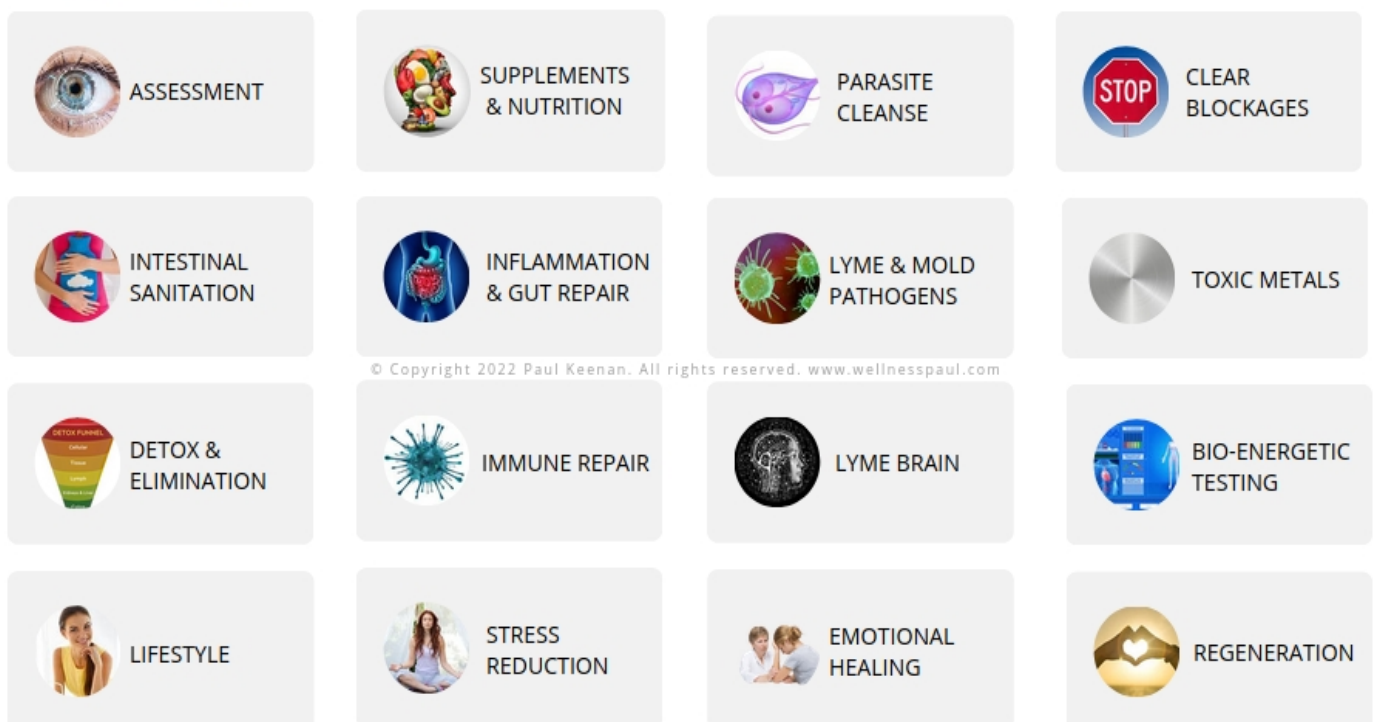

- Opting for expensive treatments and supplements when cheaper, more effective options are available.
- Trying to save money, can end up costing you more, due to repeated failure.
- The cost of a 'done-for-you' protocol, like LYMECLEAR, or a Lyme Disease Retreat... which might fix you at the START of your healing journey... can be much better options than doing it yourself.
- Out of an abundance of caution, many Lyme solutions are designed to work, slowly. This isn't always necessary and can increase costs.

If you haven't got it, you haven't got it. It's why I have provided affordable options such as the **LYMECLEAR Hero** option and **Lyme Disease SET** (below).

“You cannot build a house to last 100 years without detailed drawings, the right skills, and quality materials. Building a body to last 100 years is no different.”

Modules

LYMECLEAR is a sequence of different modules, each containing step-by-step instructions. They can be added to, combined, omitted or switched around, depending on individual need and response. Structured, like this, makes it easier to follow and understand.

Additional modules may include EMFs, MTHFR, SIBO and more. - Paul Keenan

Lyme Disease is complex, affecting you mentally, physically, emotionally, energetically, etc.. It is NOT one symptom = one drug. The standard medical approach does not work with chronic disease. With natural healing, you are trying to **heal**, not just **manage** symptoms. The two approaches couldn't be more different.

Healing Factors

In an increasingly toxic world, many factors have to be considered. Such as...

DETOX &
ELIMINATION

Pesticides, Chemicals, Heavy Metals,
Metabolic & Acid Wastes, Lymphatic
Drainage, Endo- & Neuro-Toxins

PARASITE
CLEANSE

Parasites, Pathogens, Fungal Overgrowth,
'Bad' Bacteria, Viruses, Mold

GUT REPAIR

Inflammation, Unbalanced Gut Flora,
Stunted Micro-Villi, Enzyme Deficiency,
Food Sensitivities

IMMUNE REPAIR

Probiotics, Stress Management,
Sleep, Exercise, Nutrients

NUTRITION

Individualized Diet, Trace & Macro
Minerals, Vitamins

BLOCKAGES

Biofilms, EMFs, Dental, Emotional Trauma,
Negativity, Addiction, Stagnation,
Restricted Blood, Lymph & Nerve Flow

Part I

1-14 Days Detoxification and intestinal cleansing
Parasites, bacterial and fungal infections
Mycoplasmas and remaining infections

Part II

- Inflammation
- Gut repair
- Enzyme Production
- Gut Flora
- Mitochondria/Energy System
- Nutritional Deficiencies
- Digestive system
- 'Lyme Brain'
- Complex conditions
- Regeneration

* LymeClear has two distinct phases. A Preparation Phase may be required, for more serious cases. 1-2 months of detox, re-mineralization and de-sensitization (i.e. mold)

"When we broaden the definition of Lyme Disease to include other chronic persistent infections, like Bartonella and Mycoplasma, probably 80 to 90 percent of the U.S. population is suffering symptoms caused by chronic persistent infections"

- Dr Dietrich Klinghardt

Inject The Fish?

We all want to take a pill and get better. It's what we have been conditioned, from birth, to expect. Unfortunately, this does not work with Chronic Disease.

Antibiotics may temporarily reduce parasitic and bacterial load but it's usually at a cost to our gut and immune health.

A fundamental starting point, when reversing Chronic Disease, is to identify the root cause. The internal conditions, within the body, causing you to get sick.

What do we do when goldfish water is dirty? Inject the goldfish with poisons? Cut out its little organs, with tiny surgical tools? No. We clean the water. Our body is 96% water. Biological laws are the same. When 'dirty', we need cleaning.

Effectiveness of Lyme Solutions

This poll isn't large enough to draw firm conclusions. However, it does show there's more than one way to tackle Lyme. Here's a thought. If your protocol included ALL these solutions do you think your odds of success would improve? This is what happens on Retreats. Like firemen putting out a house fire, the more hoses, the quicker the fire is extinguished.

10 Ways Lyme Solutions Fail

- 1 Too few Lyme-Literate Doctors/Practitioners
- 2 Lack of a Properly Structured Protocol
- 3 Ineffective or Inadequate Solutions
- 4 Unreliable Testing
- 5 Individual Responses To Treatment
- 6 Not Addressing Underlying Cause
- 7 Toxicity
- 8 Not Sticking To A Protocol
- 9 Lack of Support
- 10 Lack of Funds

*Complete the 'Healing Blocks Checklist' (details, below)
to identify more reasons we fail.

10 Reasons To Use LYMECLEAR

- 1 Structured
- 2 Comprehensive
- 3 Addresses underlying cause
- 4 Holistic/Natural
- 5 Applies the fundamentals of healing
- 6 Natural anti-microbials
- 7 Clears healing blocks
- 8 Energetic Testing
- 9 Fair pricing
- 10 Support is included

There is no guarantee when it comes to healing. Success very much depends on your efforts. However, if you do the right things, at the right time, in the right order, your odds of recovering are high.

Does LYMECLEAR Work?

While a cure is said to be impossible, being well enough to lead a normal life is entirely possible. Around 70% completing Part I of LYMECLEAR are 90% improved in under 14 days. 25% need adjustments or more time. 5% do not respond for unknown reasons.

Response varies depending on your age, sex, length of time infected, co-conditions, response to supplements and therapies and how well you follow to the protocol.

It's important to understand Lyme Disease is Chronic Disease. The range of chronic conditions it causes, requires a broad natural healing solution. Only part of which is clearing infection.

LYMECLEAR could be called GOUTCLEAR, ARTHRITISCLEAR, FIBROCLEAR, MSCLEAR, IBSCLEAR, DIABETESCLEAR and so on. The labels Doctors give, help them prescribe medicines, but don't describe the real cause (parasitic) nor do they matter so much in natural healing. You are addressing the underlying cause and whole person (holistic). Once the body is cleaned, nourished, balanced, strengthened and cleared of infection, all conditions should resolve. As Charlotte Gerson informs us... *"You can't heal one condition and keep two more. Once you heal one, they all heal."*

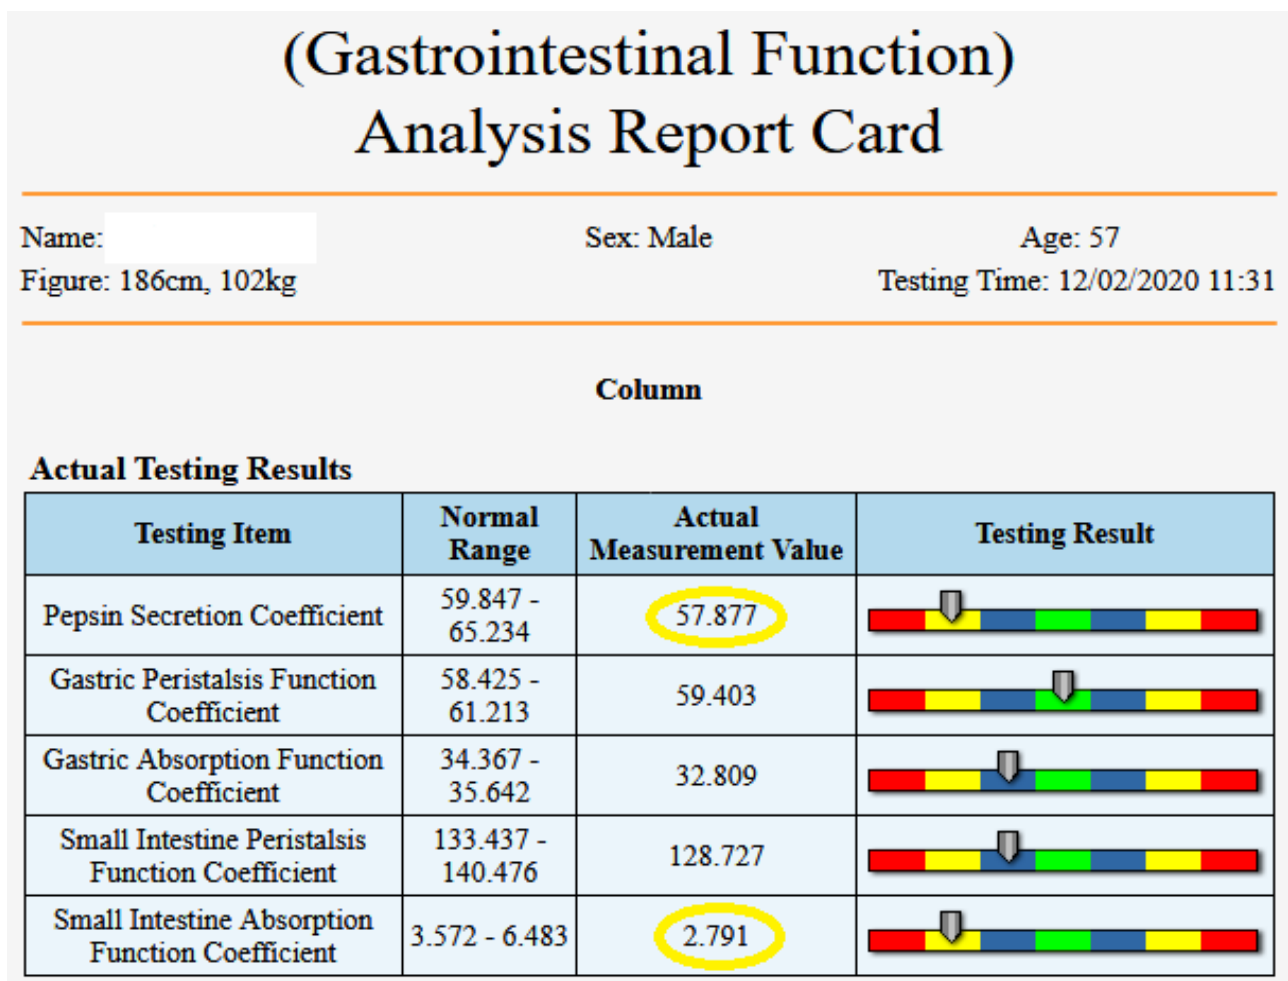

Testing

Instead of relying on subjective feelings, wouldn't it be good if we had a way to identify what's going on under the hood and track progress, at every stage of your protocol?

Bioresonance, included in the Premium and Intermediate package, can provide us with this kind of feedback. There are two frequency devices. The Bioplasm and Quantum. One indicates conditions, stage and location and has a Therapy option. The other indicates the status of the 7 major body systems, mineral and vitamin levels, toxins and more. When used correctly both are helpful.

The below example is for the Intestines. Green and blue mean healthy. Yellow and red, imbalance. Specific numbers can be tracked, daily and weekly, to observe progress or setbacks.

Figure 2: Example results of Gastro-Intestinal scan

Giardia

Few have heard of Giardia Lamblia, Lamblia Intestinalis or Giardia Duodenalis... different names for Giardia... despite it being the No.1 Protozoan parasite, worldwide.

Chronic Giardia is a major cause of chronic, degenerative disorders, due to its profound effect on the gut and immune system. Because standard stool tests easily miss it, practitioners look elsewhere for cause.

It's unclear how much Giardia affects Lyme Warriors but I regard it as a primary cause of Lyme-like symptoms in around 20%. How do I know this? Because when you clear Giardia, their Lyme symptoms resolve.

Giardia is on my list of Healing Blocks, due to its profound effect on the gut.

Testing is unreliable, apart from bioresonance which I have found to be an accurate indicator of Giardia infection. It's why devices are offered in the protocol.

Fasting

Fasting (not starving) has been used for thousands of years to bring about healing. Animals, when sick, instinctively stop eating and seek out clay, herbs or green leaves (chlorophyll).

After running Fasting Retreats for 20 years I have seen many transformations. Some, within days. When unable to clear parasites or pathogens, Fasting almost always makes the difference. DOUBLING parasite clearance rates. Put another way... if you eat, you HALVE your chances of success. You may also be feeding invaders.

By not eating, your body's energy and vitality... previously taken up with preparing, consuming, digesting and eliminating food... is now available for cleansing, healing and regeneration. The combination of fasting and detoxification, is exceptional in reversing chronic disease, generating new stem cells and accelerating all aspects of healing.

If you have never fasted before, it is far easier than eating, say, a vegan or low-carb diet, where you feel hungry all the time and healing takes longer. With fasting, there is little to NO hunger because, after 36-48 hours, your digestion 'switches' off. You can then go many days without food.

Coconut water Fast

Can Everyone Fast?

If you are ageing; have never fasted; are very toxic, normal blood pressure exceeds 140; you have issues with heart, kidneys or liver; are emaciated; unable to efficiently excrete toxins, or suffering severe symptoms, please contact me to discuss options.

Individuals 'at-risk' may need to spend up to 2 months, optimizing liver and kidneys BEFORE undertaking a fasting detox. This time can be dramatically reduced, by using Bioplasm 'Meta-Therapy' on these organs.

If you are unable, or unwilling, to Fast, eating is permitted. However, I cannot guarantee success. Inflammatory foods must be identified and excluded. Once the gut is healed, these can be slowly re-introduced.

Supplements

While I suggest supplements, I do not sell, limit, nor make commissions on them. You are free to incorporate regimes, such as Buhner, Rawls and Cowden.

Support

LYMECLEAR includes 4 hours video and remote support. This excludes the HERO program which is protocol-only, with limited email support.

Additional hours can be purchased, as needed.

LYMECLEAR is undertaken at home. There is no requirement to physically meet with a practitioner. You connect via video, email or social media. Online programs save tremendously on Doctor visits, travel costs, time off work, testing and re-testing.

Support is needed for:

- Health assessment and information-gathering
- Protocol design and delivery
- Answering questions
- Ongoing protocol adjustments, as needed (it's always needed)
- Technical and emotional support
- Progress monitoring
- Device setup, baseline scans, 'Meta-Therapy' and training
